SPRING 1959

Please Note

Although our supply of potted roses and deciduous stock is larger than last year, early bookings have been good and the quantities of roses and potted stock available at this time are actually less than those of a like period a year ago.

Placing your order with us now.....is our assurance of again having you as a customer and your assurance of good stock in your spring inventory.

POTTED NURSERY STOCK FOR SPRING 1959

The following stock will be potted in 8" and 10" papier mache' pots. This stock will not be available until May 1st, or until the plant is well leafed out, whichever is sooner.

This is excellent material for cash and carry sales and will extend your selling and profit season considerably. All plants will come with colored descriptive tags. Prices quoted are for a minimum of 25 plants and 10% will be added for quantities of less than 25.

ROSES ROSES ROSES ROSES ROSES ROSES ROSES

All our roses are California grown, heavy, No. 1 grade. They are potted in papier mache' rose pots and started in cold frames. They are leafed out by May 1st to 15th and ready for delivery to our customers.

A colored picture tag is attached to each rose at no extra charge. In addition, all Patented Roses will be in green colored pots and the Non-Patented Roses in tan colored pots for easy identification.

Some suggestions on the care and handling of roses in papier mache' pots: They should be placed on a gravel surface or some other medium which allows air to reach the bottom of the pot. In this manner, no rotting of the pot will occur. It is not necessary to remove the pot when planting the rose as the pot itself will rapidly breakdown upon contact with the soil permitting the roots to penetrate the soil.

Non-Patent Varieties

2 year #1

Price (Including colored tags) \$.95 each
(Note: To any combination orders of less than
fifty roses, add 10¢ per rose.
